PROFESSIONAL SUMMARY

Mid-level Flutter developer with 3+ years shipping production Android and iOS apps to Google Play. Owned Flutter Architecture, Agile, sockets, Payments, live tracking, Sentry, and platform channels. Native Android (Kotlin) on MyFawry (10M+ Play Store installs). Open to a mid-level Flutter role.

TECHNICAL SKILLS

Flutter, Dart, Android, Kotlin, iOS (Flutter), Clean Architecture, Cubit, BLoC, REST APIs, Git, WebSockets, Pusher, Agora, Paymob, Firebase, live tracking, payment gateways, platform channels, MethodChannel, background services, Sentry, Agile, Google Play, App Store.

PROFESSIONAL EXPERIENCE

Glitch Fix — Mobile Development Lead (Flutter)

Cairo, Egypt | December 2025 – Present

- Flutter lead on the company's production apps. I owned Architecture, Agile task distribution, sockets, Agora, background services, Sentry, and platform channels (Flutter ↔ Kotlin).
- I solely owned WatFil Client and WatFil Staff in Flutter.
- I was responsible for publishing to Google Play and App Store for 5 production apps.

Fawry — Android Developer

Cairo, Egypt | June 2024 – November 2025

- I worked as a native Android (Kotlin) developer on MyFawry in a large team. National payments super-app: 10M+ Play Store installs and 170K+ reviews.
- I was responsible for adding payment services, improving performance, and working production APIs and sockets.

Nofal SEO — Flutter Developer

Egypt | 2023 – May 2024

- Flutter developer. We shipped 4 production apps to Google Play.
- I was responsible for Pusher realtime and Payments on most of those apps, and for live tracking on the ride-hailing product (SEDA / SEDA Driver).

SELECTED PROJECTS

MyFawry — Android (Kotlin) · Fawry · 10M+ Play Store installs · 170K+ reviews

- I worked on MyFawry as a native Android (Kotlin) developer in a large team, on a national payments super-app (10M+ Play Store installs, 170K+ reviews).
- I was responsible for adding new payment services into the live production app.
- I was responsible for performance work and for production APIs and sockets.

Artistic Theatre House (البيت الفني للمسرح) — Flutter · Nofal SEO · Google Play · 10K+ downloads

- I worked on this Flutter app for shows, listings, and booking (10K+ Play Store downloads).
- I was responsible for Firebase Auth — login and the full account flow.
- I was responsible for notifications and video playback used across shows, listings, and booking.

SEDA — Flutter · Nofal SEO · Google Play · 1K+ downloads

- I worked on this ride-hailing product in Flutter: the passenger app (1K+ Play Store downloads) and SEDA Driver (1K+ downloads).
- I was responsible for live tracking on both apps — matching, realtime location, and keeping passenger and driver location in sync.
- I was responsible for Payments. I owned the Paymob integration and ride checkout.

WatFil Client — Flutter · Glitch Fix · Google Play · 1K+ downloads

- I owned this app myself. Flutter marketplace connecting customers with local water companies (1K+ Play Store downloads).
- I was responsible for the full client product: catalog, orders, and maintenance requests.

WatFil Staff — Flutter · Glitch Fix · Google Play

- I owned this app myself. Staff ERP for WatFil water companies.
- I was responsible for GPS attendance, leave requests and approvals, missions, and permissions.

Sky Academy — Flutter · Nofal SEO · Google Play

- I worked on this Flutter learning app: courses, training paths, and in-app updates.
- I was responsible for the course content screens, the learning flow, and notifications.
- I was responsible for the release gate. Nothing went live on the store until I checked the build.

RAWA LIVE — Flutter lead · Glitch Fix · Google Play · 1K+ downloads

- I worked on RAWA LIVE as Flutter lead at Glitch Fix (1K+ Play Store downloads; also published on the App Store). Rooms, gifts, games, and realtime.
- I was responsible for Architecture, Agile task distribution, and publishing to Google Play and App Store. At Glitch Fix I owned publishing for 5 production apps.
- I was responsible for platform channels between Flutter and Kotlin, Agora, sockets, background services, and Sentry after release.

EDUCATION

B.Sc., Faculty of Electronic Engineering | 2020 – 2025

LANGUAGES

Arabic (native). English (professional working).
